2nd Annual Conference of Maharashtra Rheumatology Association

3rd & 4th August 2019 In Nashik

Venue : Sula Vineyards

Dear Colleagues,

We, the Rheumatologists in Nashik, scientific committee of MRACon and Members of MRA are working hard to make the 2nd Maharashtra Rheumatology Association (MRACon) a big success. The scientific committee has invited national and local speakers who are experts in their field. An investment in knowledge pays the best interest. The speakers are taking care to leave no stone unturned to make sure that your investment of time is rewarded well. All speakers are distinguished clinicians and good orators.

'Emergencies and Urgencies in Rheumatology' is the theme we have chosen to showcase in this conference. Though the medical community has branded us rheumatologists as the manager of chronic diseases, there are so many instances where we have to sweat it out managing the acute cases. Not only do we have to remove this misconception of the medical fraternity, but also brush up our knowledge of managing these life threatening situations. This theme had skipped the attention of recent Rheumatology conferences. We will be trying to focus the attention of this conference on this unusual theme and topics.

We want to encourage research in young as well as our own rheumatologist who are practicing in remote places of Maharashtra. We announce four investigator awards for best poster and best paper presentation in each category.

The online submission for abstracts will open on 15th May 2019 and close on 15th June 2019. Applications should be submitted along with CV at mracon2019@maharashtrarheumatology.com

It is not without reason that Nashik draws tourists from anywhere and everywhere. It is land blessed with Lord Rama's presence, adorned by the beautiful Godavari, and labeled as the wine capital of India. The picturesque location of Sula Vineyards is the venue of this MRACon. The ambience here is mind blowing, something really to fall for. Coupled with the timing of magical monsoon, the stay here is sure to dissolve all your stresses and worries. We are planning for Heritage walk which will take you around several prime locations in Panchavati. The holy places of Trimbakeshwar, Shirdi and Saptashrungi are also not too far away. It may be difficult for the ladies to control their craving of shopping for a good Paithani.

We urge all of you to mark your dates and be there for this MRACon. We suggest that you register early so as not to miss out on the limited rooms available at Sula. For those who register late, there are a few good resorts in the vicinity, but some distance away. A day prior, do not miss the wine tour arranged for the registered delegates.

Don't miss this opportunity to be a part of this event filled with knowledge and fun. Be there...

Theme

Emergencies and Urgencies in Rheumatology Scientific Program

1. Presidential Oration
2. Pulmonary Emergency
 - ◆ Diffuse Alveolar Hemorrhage
 - ◆ How to manage Acute Exacerbation of Interstitial Lung Disease
3. Gastrointestinal Emergency
 - ◆ SLE pancreatitis
 - ◆ Mesenteric vasculitis
