

Monsoon Rheumatology Summit

SCLERODERMA & SPONDYLOARTHROPATHY

21st & 22nd of July, 2018 @ Kochi

Dear colleague,

Monsoon Rheumatology Summit, a novel initiative of the Kerala chapter of the Indian Rheumatology Association aims to provide an innovative and comprehensive overview of the latest research and developments in the field of Rheumatology. We are delighted to invite you to the very **first** 'Monsoon Rheumatology Summit' to be held at **Kochi** on the **21st and 22nd of July, 2018**. This unique meeting offers the opportunity for Rheumatologists to update themselves and share their thoughts with leading researchers from the country and around the world.

This year we are focussing on ***Scleroderma and Spondyloarthropathy***, which are considered to be two of the most exhilarating and fast paced subjects in Rheumatology. During this interactive program, over one and a half days, we have selected topics in such a way that any attendee will be able to get an update on the latest developments in the field as well as translate them to clinical practice. Leading researchers like **Dr. Dinesh Khanna, Dr. Chris Denton, Dr. Nigil Haroon, Dr. Georg Schett, Prof. Ranjeny Thomas** have already confirmed their participation.

Apart from top class academics, the lush verdant landscape of Kerala gives you another reason to block these dates early and participate in this academic feast. We look forward to greeting you personally here at Kochi.

Warm Regards,
IRA Kerala Chapter
